Inter-Agency Research Council of Canada (IRCC)

1. Preamble

The Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC), and the Social Sciences and Humanities Research Council of Canada (SSHRC) (the agencies) are federally funded organizations that support research training, knowledge transfer and innovation in Canada.

The agencies expect the research they fund to be conducted to the highest professional standards and to ensure the best use of public funds, experiments, and resources. It is a responsibility of researchers to ensure that research is of the highest quality and that the research is necessary for research excellence.

The agencies believe that research data collected through the use of public funds should

Introduction

Research Data Management (RDM) is available throughout the life cycle of the research project (preparation, collection, documentation, storage, sharing, and preservation).

- Ensuring that data is properly documented
- Uploading data to the appropriate data repository
- Ensuring that data is properly uploaded and stored

Quick Links to Resources
