

Saint Mary's Strategic research Plan (SRP)

- To view SMU's SRP:
 - <http://www.smu.ca/academic/vp/research-plan.html>
- Four overriding objectives and five research thrusts – each with their own specific objectives.

Saint Mary's Strategic research Plan (SRP)

- The University has four key objectives in presenting this Strategic Research Plan:
 - To carry out high quality research that builds on existing strengths and partnerships, with particular emphasis on interdisciplinary endeavours;
 - To develop research programs that are relevant to and engage the Atlantic Canada community;

Saint Mary's Strategic research Plan (SRP)

- The University has four key objectives in presenting this Strategic Research Plan:
 - To engage in research projects that offer value nationally and internationally by involving Saint Mary's researchers abroad and bringing visiting researchers to Saint Mary's;
 - To ensure that students, particularly undergraduates, benefit from research activities at the University.

Saint Mary's Strategic research Plan (SRP)

- The five research thrusts:
 - Research for Atlantic Canada communities
 - Innovation in business management, finance and workplace studies
 - Environmental studies and sustainable development
 - Astronomy and computational science
 - International development and human migration issues
